DARA

DARA L Box

IoT Device

Description

DARA Lighting is a Bluetooth and Wi-Fi enabled solution that makes light control and personalization a breeze. The solution is embedded in our compact DARA L Box devices and allows you to individually control each luminaire. No additional cabling or switches are needed. DARA Lighting comes with a smartphone application.
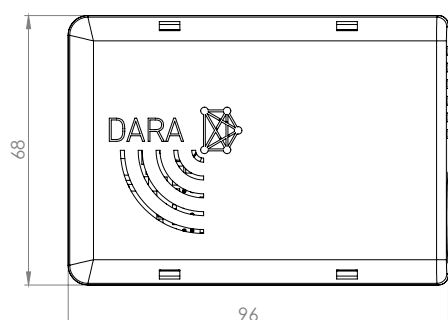

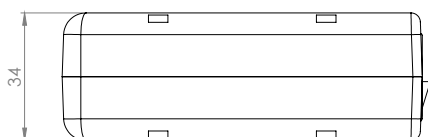

The solution is highly flexible, suitable for any type of business – from small offices to the largest retailers. With DARA Lighting, any business has the power to tailor its lighting preferences and reduce its energy expenses by making sure light is present only when needed.

Features & Benefits

· Low size, easy to install on a DALI luminaire

· Communication via BLE, BLE Mesh

· Controls up to 64 luminaires

· 5-year guarantee

Applications & References

Indoor | Office | Retail | Industrial & Logistic

DARA

Specifications/Technical Data
